Fax (808) 961-2812

The Weatherization Assistance Program (WAP) helps low-income individuals and families reduce energy costs and increase comfort and safety in their homes. Individuals, families, the elderly and the disabled who are making no more than 200 percent of the current federal poverty income level are eligible for help. However, priority is given to the elderly and disabled, households with high-energy consumption, emergency situations and homes with preschool-age children.

Participating households average nearly 33 percent in savings, or approximately \$293 per year, after the completion of weatherization improvements.

H.C.E.O.C. (Hawaii County Economic Opportunity Counsel) is offering to the Public an "Energy & Money Efficiency" workshop in major districts on the Big Island. Anyone interested in weatherizing their homes can come apply for Energy Saving Products (Kits) at this workshop or call our Hilo Office for details.

We ask that you pass the word along to your family, friends and neighbors; take advantage of this FREE presentation/workshop and the products that we are offering.
