DECLARATION OF ACTIVE UTILITY ACCOUNT

LIHEAP offers two programs Energy Crisis Intervention (ECI) and Energy Credit (EC).

Energy Crisis Intervention assists household who are faced with utility (electric or gas) termination/disconnection. Benefit for this program is limited to a one time only payment for eligible charges which is deposited into the utility account. If the household's bill is greater than the maximum ECI benefit amount, the household is responsible for the balance of the bill.

Energy Credit assists eligible households with their utility bills. If eligible, a one-time only payment is deposited into the utility account. Payments are dependent on each household's situation and LIHEAP funding. Eligibility for his program also requires the household to maintain an open account with the utility company until the day the credit is applied; and credit is not transferrable between islands. If there is no open account on the day the credit is posted, the household is **not eligible** for the benefit. It is important the household continue to pay their bills until notification that credit has been received by the utility company.

**Energy Credit applications are taken once a year.
Households are limited to one program (ECI or EC) per Federal Fiscal Year
(October 1st through September 30th)**

I have been informed of the requirements above and I choose to apply for:

_____ with _____
(EC or ECI) (Utility Company)

I understand I shall not be eligible for Energy Credit (EC) if I do not have an **active** residential service account open for my household on the day the utility posts the Energy Credit. The account number must be active on the day the utility company posts the Energy Credit. The active account must be with the utility company on the island where my request was filed. Should the account close after the credit has been applied to my utility account, any unused funds may be returned to the State.
